

WITNESS MONUMENT TIES:

- MAG nail and shiner set in hack 1.2' above grade in the north side of an 18" oak; S74°W 35.8'
- MAG nail and shiner set in hack 1.0' above grade in the northwest side of a 10" maple; N38°E 28.6'
- MAG nail and shiner set in hack 1.0' above grade in the northeast side of a 9.5" sweet gum; S61°E 31.4'

OTHER ACCESSORIES:

A 5' steel t-post was set 3.1' above grade 0.6' south of the stone, with a Monroe County Survey Marker sign 2.4' above grade, facing north.

OTHER OBSERVATIONS:

The stone is in a very open and swampy flatwoods, about 15' north of a big stump hole that is full of water. No fence remains were observed in the vicinity of the stone.

NOTES:

- Field work was performed on February 27 and September 21, 2017.
- Monroe County Surveyor's Field Book 48, page 64 and Field Book 50, page 74.
- Project Name: 34-T7N-R1W, Field work by: RSO & MCB, Drawn by: RSO, Reviewed by: RSO & TER.
- This document is not complete without the associated plat and report of survey for Section 34-T07N-R01W by Rachel Oser, of the Monroe County Surveyor's Office, dated May 29, 2018 and recorded as Instrument Number 2018006787 in the Monroe County Recorder's Office.
- Coordinates shown hereon were obtained from GPS observations utilizing the Indiana Real-Time Network (INCORS). Indiana West Zone, NAD83(2011) Epoch 2010.0000, State Plane Grid Coordinates, US Survey Feet. Geoid model G2012BU7. Datum NAD83_NO_TRANS.
- Coordinate data was collected using a Topcon PG-A1 antenna and a Topcon GRS-1 data collector. Witness ties were measured with a 2° compass adjusted for magnetic declination and a 100' cloth tape. Distances to bearing trees are measured from the monument to the MAG nail and bearings are measured from the monument to the center of the tree.

▲ **Monument Description:** 0.6' x 0.3' limestone with cut "+" found 0.5' above grade

MONUMENT HISTORY:

ORIGINAL GOVERNMENT SURVEY:

Year Surveyed: 1811-1815 By: Arthur Henrie

MCS Page: 0018

Original monument: Wooden Post

Bearing Trees or Reference Monuments:

Species	Dia.	Bearing	Dist.(lks)	Dist. (ft)
Maple	10"	S64°E	24 lks	15.8'
Hickory	12"	S27°W	14 lks	9.2'

Notes: State Archives page 215 (gray00013)

HISTORY AND SEARCH PROCEDURE: The original GLO surveyor set a wooden post at this corner with witness trees to the east and northwest. No evidence of the monument or its accessories was found. No other survey records were found referencing a monument at this corner. However, Deed Book 106, page 431 references this corner as "a stone of earlier surveys." In October of 1882, M. Buskirk (Reference Survey ID 000029 - Monroe County Survey Book 2, pages 375-376) appears to have visited this corner, as he set a monument at the halfway point between this corner and the southeast corner of Section 27 and a monument at the halfway point between the new corner (CICr_P21) and this corner. He did not take any new witnesses or indicate a monument type. Another stone was found 660' east of this stone.

The stone was found covered in moss and sticking up 0.5' above grade in a swampy area of open flatwoods. When the moss was removed, a clear-cut "+" was visible. No other markings were observed on the stone, but I only dug it up enough to tell that it is planted firmly in the muck. No fence remains were observed, but it is certainly possible that fence could be recovered if someone looked for it with a metal detector. An old east/west tree line is apparent on the aerial photography, but it was not obvious to me when I was at the corner.

ORIGIN: The origin of this stone is unknown, but it was accepted with no associated uncertainty.
